

Bulls Tahoe Challenge ePowered by Bosch

69miles/111km

SEA OTTER
PLAY

If mountain biking with a bit of extra power is your thing, this is the challenge for you. Test yourself and your eMTB by riding the legendary trails surrounding Lake Tahoe. Even with additional pedal-powered assistance, this route, that includes the famous Hole-In-The-Ground trail, will push your limits with grinding, technical climbs and rowdy descents.

Even though this is a challenge, do yourself a favor and take a second or two to take in the alpine views before shredding onward. E-bikes are strongly suggested (you might have a hard time keeping pace on a standard bike) but all are welcome to join in and give it their best attempt.
